Languages: C++, Java, Python, JavaScript, Typescript, SQL, HTML/CSS, Node.js

Tools: Git, Command Line, Docker

Soft Skills: Communication, Adaptability, Quick learner, Problem-solving

EDUCATION

California State University, Monterey Bay, Seaside, CA

Expected: May 2026

Bachelor of Science in Computer Science, Software Engineering

GPA: 3.8/4.0

Dean's List for 3 semesters

Cabrillo College, Aptos, CA

May 2024

Associate of Science in Liberal Arts, Math & Science

Relevant Coursework: Internet Programming, Operating Systems, Graphics Programming, Computer Architecture

RELATED EXPERIENCE

Software Engineering Intern, CTI / CodeDay

June 2025-Aug 2025

- Worked with a teammate to refactor code and correct misleading error messages for **Crawlee**.
- [Crawlee](#) is an open source web scraping library with 22k+ stars on Github and 500k+ downloads per month.
- Changes were made with **Typescript** and tested with **Vitest**. ([Pull Request](#))

Software Engineering Intern, CTI / CodeDay

Jan 2025-Feb 2025

- Collaborated with three students to add a test case to Open Energy Dashboard.
- [Open Energy Dashboard](#) is a free, open source program that facilitates displaying energy and resource data.
- Changes were made using the **JavaScript** test framework, **Mocha**. ([Pull Request](#))

PROJECTS

Frontend Developer, SwapSmart, CSUMB, Seaside, CA

Feb 2026-Current

- Working with a team of four and a client to create a mobile app that provides sugar-free alternatives to products.
- Gained experience in creating an app from scratch based off the client's specifications.
- Retrieving product data from an API that is built using user-provided information.
- Database and authentication uses **Supabase**.
- Additional technologies used: **React Expo** and **TypeScript**.
- [GitHub Link](#)

Full Stack Developer, VettyFilms, CSUMB, Seaside, CA

Feb 2026-Current

- Contributing to an in-development mobile/web app that is a marketplace for filmmakers and clients.
- Gained experience working on a project that is nearing public release.
- Called and displayed user and transaction information from the **PocketBase** database.
- Added frontend features while maintaining the applications look and feel.
- Additional technologies used: **TypeScript**, **Vite**, **Tailwind**.

Backend Developer, Movie Browsing Website, CSUMB, Seaside, CA Nov 2024-Dec 2024

- Collaborated with a team of three to plan and design an intuitive website, from the backend to the UX.
- Utilized an API to retrieve and display relevant media information.
- Used a database to store user information and their lists of favorite movies/shows.
- Accomplished using **EJS**, **Node.js**, and **MySQL2**.
- [GitHub Link](#)

Full Stack Developer, Otter Library System, CSUMB, Seaside, CA Nov 2024-Dec 2024

- Developed an Android app that simulates a library system.
- Designed to allow users to create an account and check out books from a selected genre.
- Implemented additional functionality for admins to view an activity log and manually add books.
- Accomplished using **Java**, and **Android Studio**.

Project Lead, Arduino Countdown Timer, Cabrillo College, Aptos, CA 2023

- Designed a timer using an Arduino, two segmented displays, and a rotary encoder.
- Accomplished using **Arduino**.

Project Lead, Word Shuffle, Personal Project 2022

- Planned and created a terminal game where the player guesses the scrambled word.
- Accomplished using **C++**.

PROFESSIONAL DEVELOPMENT

Member , CTI Accelerate	Sep 2024-Present
Member , Tau Sigma National Honor Society, Seaside, CA	Feb 2025-Present
Member , CSUMB Data Science Club	Jan 2025-May 2025
Member , MESA, Cabrillo College	Mar 2024-May 2024
